©2020 Office Furniture NOW!

If the business world was predictable, the need to lease office furniture might not exist. Starting a new business venture is exciting and provides a great opportunity to test drive some new furniture options and styles. Rapid expansion, relocating, a short-term project, or an upcoming special event may also make leasing a viable option.

Financial uncertainty can be a good reason make a major office furniture purchase, but leasing can lessen the blow by significantly lowering the financial risks. This puts you ahead of the game at any hurdle in your business journey. It can be just what you need to free up your credit lines for other growth investments, including:

- Starting up a new business
- Conserving capital
- Accommodates both growth and downsizing
- Acquire more upscale items affordably
- Try new trends and styles to see if they fit your needs

### The Flexibility Factor

Besides the flexibility of leasing office furniture vs buying, there are many financial benefits:

- Minimal capital outlay
- Deferring costly furniture upgrades
- Preserving credit lines for other needs
- Immediate savings upon furniture return
- One simple monthly payment

- Taking advantage of available [tax write-offs](#)
- No monthly capitalization
- No depreciation records necessary
